The renovations are operational in nature and the DCHD has funding available in existing operating budget. However, this most likely will be considered allowable under the ELC Capacity grant for DCHD but it will definitely need to be run by the CDC with support such as blueprints and a written justification for the need for these renovations and how that falls under the CDC ELC guidance. Guidance for this grant indicates renovations may be funded so long as the renovations are below 50% of the existing structure and the justifications for the renovations tie in with CDC guidance.
