It is not currently anticipated that the Partnership will incur costs directly and there will, therefore, be no payment obligations under this MOU. Instead, each County will separately enter into contracts for energy purchases from the managed subaccount directly with an energy supplier and for energy services directly with consultants, as coordinated by the Partnership. These contracts will be separately presented for Council approval when appropriate. The Partnership will coordinate implementation of these contracts for energy procurement and energy services and set guidelines and policy for purchases of energy through the managed subaccount.
